All weights and dimensions are approximate and may be subject to slight variation.

DSB is one of the most experienced producers of life-saving equipment for civil and military use, having celebrated its 75th anniversary. DSB liferafts are approved by all international authorities and is fully MED Wheelmark approved. The liferafts are available in both throw over as well as davit launched (DL) types. DSB offers an extensive range of liferafts to suit all purposes as well as a range of Marine Evacuation Systems (MES) slide and chute solutions.

DSB has over the years built an extensive service network with more than 300 stations world wide, offering service of DSB liferafts, MES as well as the full range of DSB inflatable and semi rigid boats.
